# AUDIT COMPLIANCE & 'TfNSW REPORTING' TOOL

The PrimeWorks .NET Audit Compliance module was created to fulfill a requirement of TfNSW for all NSW bus companies to maintain a register of complaints, accidents, incidents and shift timetable discrepancies.

The system has evolved from the **DATASPEED®** Windows Audit Compliance module, and includes a Business Intelligence data extraction tool, specifically designed to assist Metro, Outer Metro and Regional Rural Contract Bus operators with their **Monthly & KPI reporting** to Government.

Non-contract and Coach Operators can also benefit by using the system to record their compliance records.

The system is made up of a number of REGISTERS, which operators use record or log the respective event in, including:-

- **EARLY LATE RUNNING**
- **INCIDENTS**
- **LOST PROPERTY**
- **SERVICE ANOMOLIES**
- **WORKPLACE INJURIES**
- **DRUG & ALCOHOL**
